✂ WE STRONGLY RECOMMEND THE TABLETS. ✂

Write name and address plainly.

THE rational treatment of the very painful and widely prevalent diseases to which this pamphlet refers has long been considered one of the most difficult of solutions of the many knotty problems with which the science of medicine has to contend.

I make no apology to the medical profession for any infringement on their rights and privileges, for the course of treatment that I seek to place within the reach of all is itself the outcome of a life-long experience of **one of the oldest and most honored members of the medical faculty.**

It must not be forgotten that such diseases as Gout and Rheumatism are usually the results of the operation of causes that have been active for years previous to the outbreak of the disease. They are not to be cured in an instant or by a few doses of medicine. The **cure**, if it is to be genuinely such, must be gradual, and time and patience are necessary to undo the work of years of violations of the laws of health.

A very large percentage of all forms of valvular heart disease is due to an inflammation of the lining membrane of the heart, **excited by rheumatic and gouty poisons circulating in the blood.** Now, since apoplexy is frequently associated with valvular heart disease, it can very readily be seen that Gout and Rheumatism are common indirect causes of apoplexy and paralysis.

Post's "C. B. Q." has a direct action on the circulatory system. It renders the blood distinctly alkaline, maintains the Uric Acid in a soluble state, prevents its accumulation in the blood, and hastens its elimination **by the kidneys**. Chronic Rheumatism is frequently associated with chronic kidney disease, known as the Gouty Kidney. This class of cases is characterised by the appearance of notable quantities of albumen. Examination of the urine before and after taking Post's "C. B. Q." **proves it to be of the greatest curative value in this class of cases.**

People who have had Gout or Rheumatism for several years, yet expect to be permanently cured by using a few doses of this remedy, are advised not to buy it, as it does not contain any of the injurious ingredients so commonly used to give speedy **relief**, but which **never cure**. In this respect Post's "C. B. Q." differs from the merely palliative remedies which attack the **symptom**, but leave the **disease** uncured.

The **quantity** that will cure one person will not always cure another, for the following reasons: 1st, Some systems are more susceptible to medicine than others; 2nd, many people who have Gout or Rheumatism are also afflicted with other blood diseases which have to be eradicated; 3rd, in very many cases where Gout or Rheumatism has been of long duration, kidney trouble exists, and, as it is **through the kidneys** that the excess of uric acid has to be eliminated, it is imperatively necessary that they be restored to their normal condition. To

accomplish this a longer treatment may in some cases be required. **It is very necessary to keep free from constipation.**

It may not be generally known that many varieties of skin diseases, such as Psoriasis, Erythema and Eczema, **are rheumatic or gouty in origin.** They can only be quite cured by a course of thorough treatment with anti-rheumatic and gouty remedies. In these skin affections Post's "C. B. Q." will be found a sovereign remedy.

POST'S LINIMENT, No. 1.

Gives speedy relief in cases of Inflammatory Rheumatism or Gout where the joints are **swollen, inflamed and painful to the touch.** Price 4/6 per bottle

POST'S LINIMENT, No. 2.

Will be found wonderfully efficacious for **lame back, stiffness in the joints, contraction of the cords,** etc., etc. Price 4/6 per bottle.

STIMULANTS are generally undesirable; where, however, the patient has always been accustomed to wine at meals, a very light white wine or claret may be allowed in moderation, but port, sherry, and all other heavy wines, beer and ales, are to be strictly avoided. Whiskey, diluted, can be used in moderation. **It is not necessary to observe a special diet while using this medicine.**

TESTIMONIALS.

NOTE.—Attention is drawn to the fact that the cure in every case referred to in the older letters has proved to be permanent.

GAIETY THEATRE, STRAND, W.C.,

7th October, 1895.

DEAR SIR,—I have for some years past been a perfect martyr to Rheumatism and Gout, and have been under the care of at least a dozen medical men, but without deriving any permanent benefit.

I have much pleasure in stating that since I commenced taking your "C.B.Q." preparation I have derived the greatest benefit, so much so that, after having taken four bottles, I may state with confidence that I am completely restored to health, and in fact have no trace whatever left of the malady.

You are at liberty to make whatever use you think fit of this letter.

Yours faithfully,

EDWARD MARSHALL,

Business Manager.

A. M. Post, Esq.

41, EASTCHEAP, LONDON, E.C.,

August, 1898.

DEAR SIR,—I think it only right to certify that your "C. B. Q." unquestionably effects a permanent cure of Sciatica. After having used it in 1895, I have been **entirely free** from that dreadful malady, and, apart from its curative properties, I maintain that it improves the general physical condition to a marvellous extent. It is necessary, however, to take it three times regularly every day during the treatment in order to derive the full benefit. I have no hesitation in recommending your medicine to all those who are suffering from Gout, Rheumatism, and kindred diseases.

You are absolutely free to make use of this communication as you see fit.

Yours faithfully,

W. A. NYGH.

20, ALBERT MANSIONS, BATTERSEA PARK,

October 25th, 1896.

DEAR SIR,—It gives me great pleasure to testify to the marvellous effect produced on Gout by a course of your "C.B.Q.," and if my testimony is the means of other martyrs to this disease making use thereof, I shall feel that I have done them a life-long benefit.

Personally I have been a continual sufferer for over thirteen years, during which time I have tried most of the patent medicines, hot and cold water cures, and the prescriptions of doctors both at home and on the Continent, but they have only enabled me to get rid of incidental attacks, and have invariably affected my general health and depressed my spirits.

On the other hand the "C.B.Q." appears to eradicate the complaint from the system, and after a few doses elevates the spirits and improves one's tone, for all of which I am pleased to subscribe myself,

Yours most gratefully,

(Signed) F. J. HARRIS.

114, FENCHURCH STREET, LONDON, E.C.,

S. F. CROSS & Co.,

October 7th, 1895.

Shipbrokers, Shipping and Insurance Agents.

DEAR SIR,—I have suffered from Gout for the last seven or eight years, and have tried the ordinary remedies for it, but it has returned after certain periods as bad as ever. I have now been taking your "C.B.Q." medicine for four months, and have not felt any pain since finishing the fifth bottle.

I can strongly recommend it to anyone afflicted with Gout or Rheumatism.

I remain, yours faithfully,

A. M. POST, Esq.

S. F. CROSS.

T. H. ROBERTS, Esq., Proprietor of "Illustrated Bits," writes:

158, FLEET STREET, LONDON, E.C.,

September 22nd, 1898.

DEAR SIR,—I did not answer your letter of some three months since, because I wanted to feel sure that the benefit I derived from "C.B.Q." was not simply temporary. I have now to say that, prior to the Autumn of 1897, I had frequent attacks of Gout, in some cases incapacitating me for six weeks at a time.

About August, 1897, I began to try your "C.B.Q.," of course being careful as to diet, &c., and for the past twelve months have taken no other medicine, having used in all ten bottles.

I have never laid up a single day since I first started your remedy. I give you my hearty thanks for what I have every reason to believe is a permanent cure from an atrociously painful ailment.

Faithfully yours,

A. M. Post, Esq.

T. H. ROBERTS.

ABBOTSBURY, STREATHAM PLACE, STREATHAM HILL, S.W.,

February 7th, 1896.

DEAR SIR,—After suffering from rheumatism for several years, and having had the fever on four occasions, I was induced by a friend of mine to try your "C. B. Q.," and I am thankful to say with beneficial results, as I am now entirely free from pain; have gained seven or eight pounds in weight during the last three months, and my natural sleep has returned.

I can only say I shall always recommend your medicine whenever I have the opportunity.

With kind regards,

Yours truly,

A. M. Post, Esq.

(Signed) E. H. GARLAND.

8 Post's "C. B. Q." Cures Rheumatic Gout.

No. 36, DALMAURA, THE AVENUE,

CASTLE HILL, EALING, W.,

October 30th, 1896.

DEAR SIR,—I am in receipt of your letter of this day's date, and although I am averse to seeing my name in public print, humanity prompts me on the present occasion to forego this.

I consider your medicine almost a perfect specific in the treatment of Rheumatic Gout.

When I first began to take it I was a great sufferer from this ailment, so much so that I had considerable difficulty and much pain in even getting about, with much swelling and puffiness in my joints, but before I consumed my first bottle the urgency of my symptoms were much relieved. I have now taken in all three bottles, and I am in every respect a different being, and I feel assured that on the completion of my fourth bottle I will be quite myself again. I have always had a great objection to taking or prescribing a medicine the composition of which I am ignorant, but I do not hesitate to affirm that your "C. B. Q." compound is invaluable in the treatment of Rheumatic Gout, and you are therefore at perfect liberty to publish this letter in your little book, in order that other sufferers like myself may benefit by your undeniable treatment, and with the warmest thanks, believe me,

Yours most sincerely,

JOHN GREIG, M.B., F.R.C.S., Ed. et L.M.,
Surgeon Lt.-Colonel,

Army Medical Staff (Retired List).

5, STAFFORD PLACE, BUCKINGHAM GATE, S.W.,

A. M. Post, Esq.

July 12th, 1895.

For seven years I was afflicted with Gout, and never found any permanent relief until I used "C.B.Q." I cordially indorse that medicine.

Yours faithfully,

C. BOIZOT.

Post's "C. B. Q." Cures Rheumatic Gout.

Care Messrs. WILLIAM WATSON & Co.,

7, WATERLOO PLACE,

PALL MALL, S.W.,

October 10th, 1898.

DEAR SIR,—I am in receipt of your letter *re* to your "C. B. Q." compound.

I consider your medicine a perfect specific in the treatment of Rheumatic Gout, Rheumatism and Sciatica.

Last year I suffered martyrdom from Rheumatism in all my joints—in fact, I may say, ever since my return home from India, in 1888. I happened to see your advertisement in the *Standard*, and determined to try the Tablets, which I did with most satisfactory results. After taking four bottles, I am in every respect a different being, in fact quite myself again.

I do not hesitate to say that your "C. B. Q." Tablets are invaluable in the treatment of Rheumatism in the joints, and you are therefore at perfect liberty to publish this letter in your little book and newspapers, in order that other Indian sufferers like myself may benefit by your treatment.

With best thanks,

Believe me, Yours very sincerely,

S. W. B. SHERMAN,

Major-General M.C.S.,

A. M. Post, Esq.

(Retired List).

Post's "C. B. Q." Cures Rheumatism.

MONTROSE VILLA,

I, PRIMROSE ROAD, LEYTON,

28th September, 1898.

DEAR SIR,—After suffering from Muscular Rheumatism and Sciatica for 18 months, I was induced to try your Tablets, and am pleased to say, that after three months' treatment I was able to walk a distance of four or five miles easily, while before I tried them it was a misery to walk a short distance.

I have recommended them to several friends, who have also derived great benefit. I cannot do otherwise than speak well of your medicine, and would advise all sufferers to give it a fair trial, but not for a week or two only, and then leave it off if results are not satisfactory, **as I received more benefit in the last month than I did in the first two.**

Yours faithfully,

W. E. PHILLIPS.

THELMA, HIGHCLIFF,

CHRISTCHURCH, HANTS.

DEAR SIR,—I have much pleasure in informing you that, after having taken your medicine "C. B. Q." regularly three times a day, I am feeling quite free from Rheumatism, which I have been suffering from more or less for years, and have recommended it to a friend of mine who is a great sufferer.

Yours truly,

A. M. Post, Esq.

(Mrs.) J. FRAMPTON.

Mr. W. YARDLEY, the celebrated Cambridge University Cricketer, writes over two years after the cure was effected:—

BEEFSTEAK CLUB, 9, Green Street, Leicester Square, W.C.,

March 29th, 1898.

DEAR SIR,—I see in your advertisement in to-day's "Daily Telegraph," that you publish a letter of mine to you, dated February 9th, 1896, in which I testify to the fact that your "C.B.Q.," after three months' steady trial, had greatly benefited me at the time. I hope it may give you as much satisfaction as it gives me to know that from that day to this I have never had a symptom of the Gout, to which I was a martyr **for over 25 years**, before I had the good fortune to take your "C.B.Q."

As you are well aware, I have no interest whatever in your medicine beyond the good it has done to me personally, and the hope that many other sufferers may benefit as I have done from its use.

Yours faithfully,

W. YARDLEY.

Can better evidence be required of the curative properties of Post's "C. B. Q."?

Mr. Yardley used ten bottles of medicine.

54, STREATHBOURNE ROAD, UPPER TOOTING,

September 20th, 1896.

DEAR SIR,—After suffering from Rheumatism for three years, I was induced to try your "C. B. Q.," and am pleased to say found it a genuine cure. It is a wonderful medicine, and should be given a fair trial by all sufferers.

Yours gratefully,

A. M. Post, Esq.

F. ALDRIDGE.

A CHILD CURED.

SPRINGFIELD HOUSE, UPPER TOOTING, S.W.,

MR. POST,

August 19th, 1896.

DEAR SIR,—I feel it my duty to write and tell you the case of my little girl, aged nine years. She had suffered for several years with muscular Rheumatism. About a year ago I was persuaded by a lady, who has also received benefit from it, to try a bottle of your noted "C.B.Q.," and when the first bottle was finished I started a second, but long before she had got through that I recognised the benefit she was receiving in her general health. I am delighted to say that since then she has not had the slightest trace of the old symptoms, that threatened to become chronic, and I consider she has been perfectly cured. I shall feel great pleasure in recommending your "C.B.Q." If you wish to make any use of this unsolicited testimonial, you are quite at liberty to do so.

Believe me, yours faithfully,

(Mrs.) ALICE GRINT.

65, HOLLAND PARK, LONDON, W.,

9th March, 1897.

DEAR SIR,—In reply to your letter of the 3rd inst., enquiring for my butler, J. Taylor, who has been taking your "C.B.Q." for Gout.

I am glad to say he is now quite well. He derived very great benefit from your medicine, which no other had done before, and he believes it saved him from getting Rheumatic Fever.

The liniment also (*2) was most beneficial, for it gave almost instant relief when the pain was very acute.

Should you wish to use this letter as a reference at any time, you are at liberty to do so.

Yours truly,

(Mrs.) J. E. McCONNELL.

WALTER SEVERN, Esq., President of the Dudley Gallery
Art Society, writes as follows:—

171, PICCADILLY, W.,

May, 1898.

DEAR SIR,—For two years I suffered martyrdom from Rheumatism in all my joints, all the usual methods of treatment failed, and the malady was thought to be chronic.

I happened to hear of your cure, and determined to try the tablets, which I did with most satisfactory results, as I was speedily enabled to resume my painting, to keep free from pain, especially at night, and to move about without help.

It would be very ungrateful to withhold this letter, as I have good reason to believe your remedy to be all you represent, and I hope my cure will induce other sufferers to avail themselves of it.

Yours faithfully,

WALTER SEVERN.

FAIRFIELD, CONNAUGHT ROAD, HARLESDEN, N.W.,

31st August, 1898.

DEAR SIR,—In reply to your letter of 24th inst., I have much pleasure in recommending your "C.B.Q." Tablets for Eczema.

I have suffered during the greater part of last year from it, and after trying no end of lotions and ointments without effect, I was advised to try your tablets, and am happy to say that after taking about four bottles of them, I am quite free from this distressing disease.

You are at liberty to make use of this as a testimonial if you wish.

Yours truly,

A. M. POST, Esq.

C. F. HOCKIN.

77, EARL'S COURT ROAD, SOUTH KENSINGTON, LONDON, S.W.,
February 7th, 1896.

DEAR SIR,—I have suffered from Acute Rheumatism for many years—quite ten years. Have had the best medical advice, have taken the baths at Aix-les-Bains, Weisbaden and others, and found no relief, so I am only too pleased to say that your marvellous medicine has entirely cured me, and I have only taken five bottles. I find that, apart from its curative qualities for Rheumatism, it is an excellent tonic.

I remain, yours very truly,

A. M. POST, Esq.

(Mrs.) ANNA ARGLES.

ALFRED SIMPSON, Esq., Proprietor of the famous Brown Polish, writes:—

53, EBURY STREET, LONDON, S.W.

September 23rd, 1898.

DEAR SIR,—For nearly two years I suffered from Gouty Arthritis, which so affected my feet that I was unable to walk without great difficulty and pain. I have been unable to obtain any relief except of a temporary nature, until I tried your tablets. After three months' trial, I am thankful to say I have regained the use of my feet, and am free from pain. I earnestly recommend anyone afflicted with Gout or Rheumatism to give them a fair trial.

Faithfully yours,

A. M. POST, Esq.

ALFRED SIMPSON.

WOODCOT, HEATH PARK, LEIGHTON, BEDS,

February 8th, 1896.

I hereby testify with pleasure that I have taken five bottles of "C.B.Q.," which have entirely cured me of Sciatica, after suffering most acutely for many months, the greater portion of the time being almost helpless. I can confidently recommend its use; my case was one of Sciatica (acute).

A. M. POST, Esq.

(Signed) JOHN AKERS.

THE GULL'S HAUNT, SEAFORD, SUSSEX,

25th October, 1897.

DEAR SIR,—It is with great pleasure I can testify to the satisfactory cure effected by your "C.B.Q."

I suffered for several weeks from an obstinate case of Neuralgia in the head, caught in a mist on the Welsh mountains, and where other remedies failed yours succeeded in affording me relief. It also was the means of producing sleep, as I had been suffering from great restlessness.

You are quite at liberty to make any use of this letter, as I can confidently recommend your medicine.

Yours faithfully,

A. M. Post, Esq.

(Mrs.) ELLEN M. LOWEN.

THE CARROLL PURIFIER, LTD.,

41, EASTCHEAP, E.C.,

October 12th, 1896.

DEAR SIR,—I am pleased to say that I got immediate relief and great benefit from the use of your medicine. I was treated by several London physicians without deriving any permanent benefit before using your "C.B.Q."

The friends to whom I introduced it have been equally benefited. The one who was troubled with **neuralgia of the stomach**, I am informed, is permanently cured. He was a great sufferer for years, and of my own knowledge had consulted some of the best-known specialists for this trouble, both in London and abroad, getting only temporary relief. I am quite satisfied that sufferers from Gout and Rheumatism, for which you recommend "C.B.Q.," will be equally benefited if used according to instructions.

Yours faithfully,

A. M. Post, Esq.

J. E. CARROLL.

13, DUKE ST., LONDON BRIDGE, & TOPPING'S WHARF,
J. W. Dottridge, TOOLEY STREET, S.E., LONDON,
Provision Merchant. 7th October, 1896.

Mr. A. M. Post, 96 & 98, Leadenhall St., E.C.

DEAR SIR,—I have been using your mixture for Gout, after having tried many remedies, and have good reason to believe it is exactly as you represent it, as I have been entirely free from the slightest evidence of Gout since April, and that is something remarkable. I cordially recommend all sufferers to give you a trial.

Yours truly,

J. W. DOTTRIDGE.

LITTLE SUTTON, NEAR CHESTER,

28th August, 1896.

DEAR SIR,—I have been a sufferer from Gout for the past five years, and last May I was recommended by a friend to try your "C.B.Q." I have taken six bottles with great benefit, as I have not had the slightest twinge of my old enemy since. I have great faith in "C.B.Q.," and am recommending it to all my friends. I think such an invaluable medicine cannot be too widely known.

Business Address—

Yours truly,

54, Stanley St., Liverpool.

J. TOWNSEND.

10, VICTORIA ROAD, ELTHAM,

A. M. Post, Esq

8th October, 1895.

DEAR SIR,—For many years past I have at intervals been suffering more or less from Rheumatism, and last year also I had an acute attack of Gout.

I have taken your "C.B.Q." medicine, and have derived the greatest benefit from it. I am absolutely free from all rheumatic pains, and I am happy to say have not the slightest symptom of Gout about me.

Yours very truly,

J. M. HAMILTON.

"C.B.Q." is the only internal remedy in the world for Gout and Rheumatism that does or can produce a certificate of analysis, proving it to be absolutely free from such specific poisons as Colchicum, Calomel, or Mercury.

In order for the medicine to effect a complete cure at the earliest possible moment, it is imperatively necessary that the full dose be taken regularly three times every day during treatment, and that no omission occur between bottles.

Each large bottle contains sufficient medicine to last ten days, and where the above directions are followed to the letter, in the majority of cases, from five to eight bottles effect a cure that is complete and permanent.

Analytical Laboratory.

GRANVILLE H. SHARPE, F.C.S.,

Analytical and Consulting Chemist.

11 & 12, GREAT TOWER STREET, LONDON,

9th November, 1897.

CERTIFICATE OF ANALYSIS.

I hereby certify that I have submitted to a very careful and searching chemical analysis samples of Post's "C.B.Q." Remedy, both in the liquid and tablet form, and I have formed a very high opinion as to its merits in the treatment of Rheumatism, Gout, Neuralgia, &c.

After the application of the most rigorous and delicate tests, I was unable to detect the presence of Colchicum, Mercury, or any other injurious and violent drugs that are frequently employed, and both preparations have been skilfully and judiciously compounded from the most valuable therapeutic agents known to modern pharmaceutical science.

I consider them to be perfectly harmless in use, effective in action, and admirable specifics for the cure of Rheumatic Gout, Sciatica, Lumbago, Neuralgia, &c.
